

# **PRODUCT SPECIFICATION**

| Product Title       | GLENFRESH PORK SAUSAGE SEASONING 10Kg PAIL   |
|---------------------|--|
| Product Code        | SE20830  |
|                     | Glenfresh Pork Sausage Seasoning 10KG Pack   |
|                     | A Scobie & Junor signature pork sausage seasoning with a classic white pepper and spice combination.   |
|                     | Sausage seasonings are a critical component in the art of sausage making, offering a blend of spices, herbs, and flavourings tailored to enhance the taste profile of sausages. These seasonings can range from traditional mixes for classic pork sausages to more adventurous combinations.  |
|                     | The right seasoning blend is key to defining the character and appeal of a sausage, infusing the meat with depth, aroma, and distinctive flavours that set it apart in the culinary world.   |
|                     | Butchers value sausage seasonings for several reasons:   |
| Product Description | Firstly, they allow for the creation of a unique product range that can attract and retain customers looking for quality and variety in their meat products.   |
|                     | Secondly, the use of these seasonings helps in distinguishing their offerings from competitors, enabling the crafting of signature sausages that can become a hallmark of their shop.  |
|                     | Furthermore, butchers appreciate the consistency and efficiency that pre-mixed sausage seasonings provide, ensuring every batch of sausage maintains a uniform taste and quality, thereby upholding their reputation for excellence.   |
|                     | The popularity of sausage seasonings among butchers is also driven by the<br>growing consumer interest in artisanal and locally produced foods, where flavour<br>innovation and product differentiation are key. By leveraging these seasonings,<br>butchers can meet this demand, offering customers a gourmet experience with<br>every bite. |
| Usage Rate          | 2.50%  |
| Best Before Dates   | 24 months from date of manufacture   |
| Unit Size           | 10Kg PAIL  |
| Intended Usage      | Food Ingredient  |

| Note: The information prov | Ided is given in good    | faith and is based              |

upon the product data supplied by the raw material suppliers.

### Microbiological Specification (Typical Analysis):

| Total Viable Count | < 100,000/g   |
|--------------------|---------------|
| Mould Count        | < 1,000/g     |
| Yeast Count        | < 1,000/g     |
| Coliforms          | < 1,000/g     |
| E Coli             | < 10/g        |
| Staph Aureus       | < 50/g        |
| B Cereus           | < 50/g        |
| Salmonella         | Absent in 25g |

| Nut Statement                                     | To the best of our knowledge, all products produced by Scobie & Junor do not contain any nuts or nut derivatives. However, we cannot guarantee that they are nut free. For more information please see our Nut Policy.  |
|---|---|
| Allergenic Ingredient<br>Policy                   | <ul> <li>Scobie &amp; Junor (Estd. 1919) Ltd takes all reasonable precautions to ensure<br/>the quality of our seasonings, mixes and functional blends.</li> <li>All materials are purchased from approved suppliers against a detailed<br/>specification, which clearly indicates the presence or absence of various<br/>ingredients.</li> </ul> |
| Sieving   | All raw materials are sieved with appropriate screens for each particular raw material prior to the blending of the product.  |
| Labelling   | Product label will contain Product Code, Product Name, Best Before Date and Batch Number.   |
| Storage/Transport                                 | Cool dry ventilated conditions avoiding direct heat or sunlight. Stored off the floor and not in contact with walls or ceilings.  |
| Health Hazard                                     | This product is designed for human consumption and when used in accordance with our recommendations should be safe for that purpose.<br>Avoid ingestion or inhalation of dust when handling.  |
| Fire Hazard                                       | This product may present a fire hazard or explosion hazard when dispersed in air. Fires are readily extinguished with water or foam.  |
| Handling  | Use in a well ventilated area.  |
| Spillage/Disposal                                 | Spillage: Remove powder to a disposal container, wash contaminated area with detergent and water.   |
| Emergency First Aid                               | <b>Disposal:</b> In accordance with the control of pollution act 1974.<br><b>Skin Exposure:</b> Normal standard of hygiene and regular washing with   |
| Procedures  | water should prevent irritation.<br><b>Eye Exposure:</b> Wash with water until irritation ceases. Seek medical<br>advice if above is not observed.  |
| Procedures  | Eye Exposure: Wash with water until irritation ceases. Seek medical advice if above is not observed.<br>Inhalation: Remove person to fresh air.   |
