

Product Specification

Product Title	TEFLON TAPE 35mm FOR VACUUM PACKERS
Product Code	IP513659

ET22552 PTFE Coated Glass Tape

PRODUCT DESCRIPTION

ET22552 is manufactured from 0.120mm standard grade PTFE impregnated fibreglass with 0.050mm of high temperature silicone pressure sensitive adhesive. This product is almost chemically inert. Only molten alkali metals and fluorine under elevated temperatures and pressure will attack the PTFE surface. The fibreglass provides dimensional stability and restricts PTFE cold flow. The PTFE provides a non stick / quick release surface in heat-sealing machines, plastic bag manufacturing and roll-can covering.

APPLICATION ADVANTAGES

- Surface offers low coefficient of friction
- Fibreglass offer dimensional stability
- Increased cut through performance
- Non-stick smooth PTFE surface
- Standard grade PTFE glass = optimum % of PTFE coating

PHYSICAL PROPERTIES *

Adhesion	(oz/in width)	45
Break strength	(lbs/in width)	120
Elongation	(%)	<5
Backing thickness	(mm)	0.120
Adhesive thickness	(mm)	0.050
Temperature range	(°C)	-75 to +260
Insulation class	(°C)	180

* Physical properties are typical values and should not be used for writing specifications

AVAILABILITY

ET 22552 is available in 30metre rolls

Rolls can be slit from 6mm wide through to the full width of 1000mm

Die cut shapes can be supplied in many of our products. Please send your drawing or sketch through to our office for quotation.

Customer Approval of Specification

Please sign and return this specification to technical@scobie-junor.co.uk to confirm formal acceptance of this specification. All specifications issued will be deemed to be accepted if no communication to the contrary is received after 10 working days.
